STILL HOPEFUL OF A RACE

CORNELL'S ATTITUDE TOWARD YALE AND HARVARD.

A TALK WITH CHARLES S. FRANCIS, WHO THINKS THERE WILL BE A TRIANGULAR CONTEST-

CAPTAINS TO MEET IN NEW-

YORK ON PRIDAY. Ithaca, N. Y., Feb. 15.-Charles S. Francis, the veteran oarsman of Cornell, who has been in lineca for several days arranging for the purchase of a home for Cornell's coach with the Courtney testimonial fund, was asked before his departure Troy to-day about the chances of a Cornell-Yale race this year. Mr. Francis probably understands Cornell's attitude better and is more familiar with the sentiment of her Athletic Council than any other graduate of the University. While here he has been in consultation with members of the council. To the Associated Press representative he said that he was confident that Cornell. Harvard and Yale would meet.

Do you think Cornell will row Yale this year?

Yes: I do, and Harvard also. I have perfect faith in the sportsmanlike and manly spirit pre-vailing among the University boating men every-where, and certainly including those of Yale and Harvard. Last year Cornell and Harvard had arranged for a four-mile race at Poughkeepsie. Harvard asked Cornell to admit Vale to the race. Withthe slightest hesitation, Cornell gladly con-ted. This year Yale suggested to Cornell that Harvard be admitted to a triangular race at New-London. Cornell gladly acquiesced. If Yale backs out of the race after suggesting it, it strikes me that Harvard through whose good offices Yale had an opportunity to row Cornell last year, would have just reason to find fault with her New-Haven friends."

what do you think of the suggestion made by rnell for the formation of an intercollegiate row-

Cernell for the formation of an incidence of the second to a second to 17.

The idea I believe, will commend itself to every beating man. In a regatla such as the one proposed by Cornell the Varsity and freshmen four-posed by Cornell the Country would be scallers from every college in the country would be scallers from every college in the country would be welcome, would make a most attractive aquatic programme. In fact, it would soon become an American Henley and the great rowing event of the year, winners of races becoming the undentable champions in their respective classes.

Mr. Francis favors Saratoga as the course for the general regatla.

Mr. Francis lavoir security of the captain Goodrich, of it is the opinion here that Captain Goodrich, of Harvard, who will confer with Captain Colson in New-York City on Friday of this week in order to obviate the necessity of two races for his crew in the coming June, will endeavor to bring about a triangular meet. It is hardly possible, however, that Cornell will recede from the position stready taken.

member of the Athletic Council, who has seen A member of the Athletic Council, who has see the statement relative to the probability of Cot nell's rowing the winner of the Harvard-Yale race said that Cornell could not possibly listen to this proposition, unless the same privilege should be granted to Pennsylvania or Columbia, in case either of these crews should prove victorious over Cornell Captain Whitney, of Yale, will be in New-York to meet Captain Goodrich, of Harvard, and Captain Colson will undoubtedly confer with them.

STARK DEFEATS POGGENBERG.

THREE OF THE CONTESTANTS IN THE AMATEUR BILLIARD MATCH NOW TIED FOR FIRST PLACE

After a week's play three of the four contestants in the amateur handicap billiard tournament at Maurice Daly's find themselves tied for first place. The three are Ferdinand Poggenberg, J. B. Stark and Frank Keeney. William Barnard lost to all three, and each of the others have won two games and lost one. The tie will be played off, beginning

The game last night was between Stark, playing The game last night was between state, partial 259 points, and Poggenberg, trying to roll up 270. Stark started off at a heart-breaking pace, picking up his cue after Poggenberg had missed his opening shot, and running 47 noints. At the ending of the fourteenth inning Stark had a lead of 18 points to 35 for the Leiderkranz expert, and the Knickerbocker Athletic Club entry seemed likely to make a runaway race of it. Poggenberg improved, how-

The finish was close, Stark picking up 25 points in the forty-fifth inning and running out the game with 13 buttons in the forty-eighth inning. The score was as follows:

MISS LILIAN C. HANNA MARRIED.

THE SENATOR'S SISTER BECOMES THE WIFE OF S. PRENTISS BALDWIN.

Thomasville, Ga., Feb. 15.-Miss Lilian C. Hanna, sister of Senator Marcus A. Hanna, of Ohio, was married at 6 o'clock this evening at the home of her elster, Mrs. J. Wyman Johes, to S. Prentiss Baldwin, a young lawyer of Cleveland. The Rev. Mr. Whitney, rector of St. Thomas's Episcopal Church, of this city, performed the ceremony.

DISASTROUS FAILURE IN TORONTO.

SHAREHOLDERS OF THE FARMERS' LOAN AND SAVINGS SOCIETY LIKELY TO LOSE \$1,000,000.

Toronto, Feb. 15.-A meeting of the shareholders of the Farmers' Loan and Savings Society, now being wound up, was held this afternoon, and statements were presented showing liabilities of \$1,459.781 ments were presented showing liabilities of \$1,450.781 and assets of \$2,201.859. The latter figures, however, are gominal. It is said that many of the securities are worthless. It is thought that the shareholders will lose fully \$1,000,000. It was shown that the former manager of the company had overdrawn his account \$5,000 the teller and accountant also overdrawing to the extent of \$3,000 each. All three of these officials are now absent and, it is said, are in Mexico. There is every probability that the directors of the company will be proceeded against.

#### DR. WURTH'S OPINION

OF THE NEW DISCOVERY IN MEDICINE.

A Remarkably Successful Remedy for Dys-

pepsia. Indigestion and Stomach Troubles. Dr. Wurth, in commenting on recent discoveries in medicine, said: There is none which is certain to be so valuable and far-reaching in

benefit as Stuart's Dyspepsia Tablets, the new stomach remedy; I say far-reaching, because people little realize how important a sound atomach and vigorous digestion is to every man, Indigestion is the starting point of consump-

tion, heart disease, Bright's disease, diabetes, nervous prostration, liver troubles; why is this no? Simply because every nerve, muscle and tissue in our bodies is created and nourished from the food we eat. If that food is, by reason from the food we eat. If that food is, by reason of a weak stomach, compelied to lie for hours, a sour, fermenting mass of half-digested food, it poisons the blood and nervous system, creates gas which distends the stomach and howels, causing pressure on the heart, lungs and other organs, and seriously impeding their action. He says further, the point to direct attention is not the nerves, nor heart, nor lungs, nor kidneys, but the stomach, the first cause of all the mischief.

The remedy to use for indigestion and weak stomachs is not some cathartic, but a remedy which will digest the food, increase the flow of gastric juice, absorb the gases, and Stuart's Dyspepsia Tablets will accompilsh exactly this result in any case of stomach trouble, because these tablets are composed of the digestive acids, aseptic pepsin, Golden Seal and Bismuth, pleasant to taste, and not being a patent medicine, can be used by any one with perfect safety. I believe Stuart's Dyspepsia Tablets will cure any form of indigestion and stomach crouble except cancer of stomach.

Full size packages of Stuart's Dyspepsia Tablets are sold by druggists at 50 cents. A book on stomach diseases together with thousands of testimonials will be sent by addressing Stuart Co., Marshall, Mich. The remedy to use for indigestion and weak

AN ACCIDENT JUDICIALLY DEFINED.

INTERESTING DECISION IN A WESTERN LIFE IN-SURANCE CASE.

St. Louis, Feb. 15.-In a decision of the United States Court of Appeals rendered yesterday, affirming the decision of the lower court, wherein Mrs. Smith obtained judgment against the Western Commercial Travellers' Association for \$5,000 on the death of her husband, Judge Sanborn gives the judicial conception of the word accident. Freeman O. Smith, of this city, died from blood poisoning in 1895, as the result of a sore toe, the skin of which had been abraded by a tight shoe. Mrs. Smith attempted to collect the accident policy, but was resisted by the association. A jury in Judge Adams's court gave her judgment for the amount of the policy. The company appealed, Judge Sanborn held that the death of the defendant had been brought by an external agency, and that it was an accident.

"What is not the result of design or prearrangement," said the Judge, "is accidental. No man intentionally wears the skin off his toes, and such injury must be considered accidental."

ELECTRIC LIGHT COMPANIES COMBINE.

A CORPORATION WITH \$15,000,000 CAPITAL TO CON-TROL THE EUSINESS IN PHILADELPHIA.

Philadelphia, Feb. 15.—The consolidation of the electric light companies of this city has been practically perfected, and the few companies which have not yet gone into the consolidation will in all probability do so in a short time. The consolidation has been arranged through the Pennsylvania Heat. Light and Power Company, or rather by the con-trolling interests of that corporation. The consolidated interests will be vested in a new operating company, the Pennsylvania Manufacturing. Light and Power Company, which has been incorporated under the laws of New-Jersey and has an office in Camden and a main office in this city. This company is organized with a capital stock of \$15.000.005. It will also issue \$15.000.000 of fifty-year 5 per cent gold trust certificates, to be used in purchasing the stock of all the electric light companies in this city. This amount, it is estimated, will be sufficient for that purpose.

RUSSIAN RAILROADS IN CHINA.

EMPRROR NICHOLAS SAID TO BE ANGRY AT THE DELAY IN REACHING A SETTLEMENT

OF THE QUESTION. Peking, Feb. 15.-The Russian Charge d'Affaires, M. Pavloff, discussed to-day with the Tsung-li-Yamen the question of the Southern Manchurian

Railways. It appears that M. Payloff had informed Government that Shu King Cheng, former Chinese Minister to Russia and Germany, who arrived at St. Petersburg on February 7, charged by the Chinese Government with a special commission, would consult with the Russian Govern ment concerning the railways in question and a only instructed to discuss the railways.

M. Pavloff, therefore, complained to the Tsung-li-Yamen, and said that Emperor Nicholas was angry at being deceived. The Russian representative last year informed the Tsung-II-Yamen that Russia uld consider it an unfriendly act if any but Russians were employed to construct railways out side of Shanghai-Kwan.

Prince Oukhtomsky, the Special Russian Envey, discussed this subject with the Tsung-li-Yamen in May of last year, but no decision was reached. The secret treaty contains nothing to prevent the Chinese from borrowing money to construct the Manchurian railways with foreign assistance.

Russians here deciare that England is utterly powerless to prevent Russia from executing her designs on China. They consider England may be left out of consideration, and Russia sufficiently powerful to inwart British plans.

CHARTER DAY A HOLIDAY.

THE CITY WILL PROBABLY CELEBRATE ITS GREATNESS ON MAY 4.

Feb. 15 (Special).-There seems to be no longer any doubt as to the creation by the present Legislature of a legal holiday for New-York, to be known as Charter Day. General Howard Carroll, a member of the Citizens' Committee, in charge of this movement, called on Governor Black to-day, and they discussed the matter. The Governor was told by General Carroll that it was the desire of New-Yorkers that May 4 should be set spart as a legal holiday on which the adoption of the charter should be celebrated. Mr. Black assured General Carroll that, should a bill to this end be passed by the Legislature, it would receive his approval. Senator Cantor in the Senate and Mr. Donnelly, in the Assembly will introduce bills to-morrow, setting apart May 4 as Charter Day and making it a legal holiday throughout the city. member of the Citizens' Committee, in charge of the Legislature, it would receive his approval. SENOR DE LOME IN THIS CITY.

HE ARRIVES FROM WASHINGTON AND GOES TO THE HOTEL ST. MARC.

Sefter Dupuy de Lôme, ex-Minister from Spain to this country; his wife and two children were passengers on the Congressional Limited Express train which arrived at the Jersey City station of the Pennsylvania Railroad at a little after 9 o'clock last evening. Including servants there were nine in the party. A male friend was the only person who greeted the ex-Minister on his arrival. There were not more than a dozen people in the station at the time, aside from the employes, and few of these knew who the travellers were.

The ex-Minister and his party were the last to leave the train. Several reporters met him, but, as was expected, he declined to make any statement, or refer in any way to the incidents in which he has been recently a central figure.

The railway company had granted the privilege of using the baggage crate elevator to Senor De Lôme, and he and his family and friend rode on it to the lower floor. Three carriages were in waiting at the entrance to the station. The members of the party entered these without delay, and were driven aboard the ferryboat of the Twenty-third-st. line. On the arrival on this side the river, the carriages started at once for the Hotel St. Marc, Fifth-ave, and Thirty-ninth-st., where the party arrived at about 10:30 o'clock. The ex-Minister went at once to his rooms, leaving word that he must not be disturbed. be disturbed. As already announced, Senor De Lôme is expected to sail for Europe to-day.

HUNTING FOR THE JOHN A. MORGAN. THE NAVY TUG NINA SUSPECTS HER OF BEING

Navy tug Nina arrived here shortly before noon to-day, after having cruised about the mouth of the Sound all night in a fruitless search for a fillbuster, which was supposed to have got away. An officer of the tug stated that they were in search of the tug John A. Morgan, owned by the Morgan Iron Works, of this city, which left this port last Thursday for Greenwich to tow three port last Thursday for Greenwich to tow three barges light and a mud-digger back here. She had forty tons of pea coal in her hold, and it is thought that when she put into Bridgeport on Friday suspicion was caused by her setting so deep in the water on account of the coal. The Morgan was at New-Haven on Monday, and she departed in the afternoon. She was expected to arrive here to-day, but has not appeared.

The cross-examination of Platek brought out the fact that the Harwood men stopped work on the order of their bosses, who said that as soon as the McAdoo strikers approached they should leave the colliery. They did so. The McAdoo men were armed with sticks. He also said that as one of the committeemen, he proposed going over to Lat-timer sione, but one of the strikers said they would beat him if he did, so he went with the crowd.

Casper Wishniski swore that the Sheriff fired the first shot, and the man he fired at fell. Witness was about twenty yards away at the time. He said the Sheriff stepped to the side of the road, aimed his revolver and fired. A man standing about three yards away fell. He did not know the man's name. It is expected also that the County Committee will take some decided action in advocacy of "pure primary legislation" and of "harmony" in the party in this county.

TO FORM DISTRICT ASSOCIATIONS. The formation of Assembly district organizations

of Republicans enrolled under the constitution adopted by the Committee of Fifty-three will begin XVIIIth; but at the headquarters of the Committee of Fifty-three last night it was stated that the places for the meetings for organization would not be announced publicly in advance of the meetings. be announced publicly in advance of the meetings. Several other district organizations would have meetings this week, it was said, but the same course would be pursued in regard to them. Reports will be sent to the headquarters about the formation of the district committees in the same way that reports of the enrolment were sent. There will be an organization in every Assembly district in New-York County, and about the middle of March there will be primaries under the direction of the Committee of Fifty three to elect delegates to the General Committee.

### Jeweled Novelties: --- A Sale

THIS tells of a sale of jeweled articles for the dressing table,—daintiness and beauty caught and crystallized into a hundred forms of pretty usefulness: usefulness idealized and become Art, yet losing

The maker is one of the most prominent of those producers of what you might call "Applied Beauty," who have made America in-dependent of Paris in such matters. These pieces were his samples in the season just closed. You get them now at what his wholesale customers had to pay for them.

Most of these articles are cut glass, with silver-gilt tops, more or less enriched with amethysts, topaz, garnets and turquoises. Most of the cut glass is of the Hawke make, and the jewels are all genuine Note this particularly, for they are fine ones, selected ones, and the little prices might lead you to suspect them.

The Commercial Stationery Store THE new Commercial Stationery Store was equipped and stocked on a principle, and

that principle can be stated in a single word:-Completeness. It is our idea to make this store one to which the office-worker can go for anything and everything his office needs in equipment beyond the actual desks and chairs, -we supply those elsewhere. From a paper of pins to a letter-press, from a letter-file to a typewriter, from a pen-point to any one of the duplication devices, -this Stationery Store has them all, and everything between.
